**FAUX-WOOD UMBRELLAS**

The 9' faux-wood umbrellas (UMC532N) offer a distinctive look. Using a push-up and pin-lift mechanism, these umbrellas have a one-piece, 1 ½" diameter simulated wood pole and are made with a solid wood hub (5" height by 3 ½" diameter) with stainless steel hardware. They feature marine-grade fabric for standard tops, 8 ½" diameter flexible fiberglass ribs—which match the simulated wood grain of the pole—molded nylon joints and end tips, a single, sewn-in vent and storage ties. The simulated wood finial matches the selected pole color, which is available in teak or chestnut.

Wabash Valley can add logos to any market umbrella. Please consult a sales representative for more information.

# 7.5' & 9' MARKET UMBRELLAS

Wabash Valley umbrellas are some of the toughest on the market. They are a unique line of umbrellas that are made not only to endure weather conditions, but also to provide the consumer with quality, choice and longevity. What clearly distinguishes the Wabash Valley umbrellas are their nylon joints (yokes), spindle and end tips and their fiberglass support ribs. Unlike traditional metal and wood ribs, these fiberglass ribs are strong and resilient, bending and flexing to absorb wind without breaking or disfiguring. This durability, combined with an inherent resistance to rust and corrosion, results in umbrellas that last four to five times longer than traditional steel- or wood-ribbed umbrellas.
