WABASH VALLEY Always There

For over 45 years, Wabash Valley Site Furnishings has offered a variety of durable, functional, high-end furnishings including commercial-grade benches, waste receptacles, picnic tables, grills, bike racks and more. Our commercial outdoor furniture is ideal for a wide range of industries and applications and is available in numerous colors, styles and finishes to fit your needs.

WHAT

We turn outdoor spaces into gathering places for people to connect and make lasting memories.

HOW

Through the strength of two manufacturing facilities, we create durable, low maintenance site amenities that provide convenience and leisure for life's cherished moments.

WHY

We all have memories of running from the playground to our mother who was sitting on a near by bench, sharing a meal with friends outside at a picnic table, or desperately needing to dispose of an arm full of trash before you can continue on with your day. We love creating environments of enjoyment and comfort, so these moments become enhanced and turn into a positive memorable experience.

Heritage Collection

Our Heritage Collection is our flagship collection of Plastisol-coated outdoor furniture, crafted to endure the harshest elements and the most demanding environments. Engineered for superior durability, our Heritage products stand resilient, ensuring long-lasting performance and reliability. Whether it's a public park, a bustling urban setting, or a busy school, our extensive selection of outdoor furniture and site amenities will maintain their strength and appearance, making them the ultimate choice for any setting where durability is paramount.

Our broad selection of Plastisol-coated furniture and site amenities consist of 3/16" Plastisol coating, heat-fused and permanently bonded to the steel—that's 30 times the thickness of paints and powder coatings. All Wabash Valley framework is coated with baked-on polyester dry powder, which provides a superior coating and appearance. Stainless-steel hardware is used on all products.

Green Valley products offer environmentally friendly alternatives. Constructed with recycled plastic lumber custom-extruded from recycled plastics, Green Valley benches and picnic tables are long-lasting and nearly maintenance-free. They also don't have the drawbacks of real wood, such as fading, insects, cracking and splintering.

Unlike most wood and wood-composite products that quickly fade when exposed to the weather, the recycled plastic surfaces have no wood fibers, so they retain their vibrant look for years. In addition, they don't need waterproofing, staining or any maintenance other than an occasional washing with soap and water.
